You can submit comments on any aspect of our proposal. Some specific items that you *might* want to address are:

- Do you support creating new ORV-only trails that would enable families with children less than 16 years of age to ride together, but would restrict use of full-sized motor vehicles (trucks and jeeps)? Why or why not? Are the proposed locations appropriate? \_\_\_\_\_
- Do you think the decrease in road densities in select areas will have a favorable impact on your experience? Why or why not? Are the proposed locations appropriate? \_\_\_\_\_
- Are there roads that you value that are being proposed to be closed or decommissioned? Which roads are they, and why are they of value to the overall road system? \_\_\_\_\_
- Are there existing motorized routes that you value that are not shown on the maps and that you recommend as additions to the authorized road or trail system? Which routes are they, and why are they of value to the road system? \_\_\_\_\_
- Are there roads that you propose to close or decommission to improve your experience or reduce resource damage? Which roads are they, and what is your concern? \_\_\_\_\_
- Will the proposed action affect your recreational experience in the project area? Are there locations that you think should be treated differently? Where are they and why should the action be changed? \_\_\_\_\_
- Are there any specific roads that require additional maintenance or should be modified to improve ease of use? If so, which roads and what changes would you recommend? \_\_\_\_\_
